

# ICC – Institute for Correctional Creativity

[www.institute-for-correctional-creativity.org](http://www.institute-for-correctional-creativity.org)

## What it is:

The purpose of this online community is to make people aware of and bring them in contact with a playful, curious side of themselves, and inspire them through a series of tasks designed to unleash creativity.

## Concept :

Either with the assistance of a muse, or on one's own, the user navigates or is lead through the content matrix of **themes**: FUTURE, IDENTITY, THE UNKNOWN, TIME AND SPACE, THE DARK SIDE, and VERTIGO. Within these categories there are various **types** of activities, exercises, games and challenges, taking on different **levels** of creative difficulty. There are opportunities for one, two or more users. Some of the tasks are online, and some are to be done in real life. Remember, all are designed to plop you back into a playful and uninhibited frame of mind so that your creativity can be unleashed .

## What happens:

1) Choose a theme

2) Choose a task

Online task: one user, two users, multiple users (depending on task)

Real life task: alone, interaction (depending on task)

3) Record in your online journal

4) Optional

Check out others' results

Community activities:

Go to the gallery: Check out strange news, photos, places / Check out chat rooms

Go to the cafeteria: Check out the main forum or the broadcast forum / Check out chat rooms

## Broadcast:

a show which documents a user's experience with a challenge, and provides a live discussion round with experts and a studio audience. Afterwards a chat room is available with the participant for a real time discussion. A broadcast forum is also available.
