The TV-Show is a transfer of the online-chat to TV. Candidates discuss a topic in the studio. It's the same procedure of the game/discussion as in the web.

Genre:
- Talk-Show, one moderator and five candidates, live-audience
- The Show lasts 30 minutes and is shown once a week.

Synergy:
- The studio set is chosen on the website every month.
- The candidates are casted out of the webcommunity.

Interaction:
- The audience is included in the "Who is Who?" voting and is invited to write a description about how they perceived the candidates (studio device/ telephone / web).
- The progression of the voting is displayed above the candidates (only visible for the audience).
